About me

I'm a final-year computer science student at KTH Royal Institute of Technology, bringing 5 years of hands-on programming experience and a diverse project portfolio. Skilled in Java, specializing in full-stack development, I adeptly navigate through various aspects of app/web development, software creation, and database management, always ready to adapt to new challenges. My professional journey includes a role as product owner at Afry, where I led the development of a full-stack booking and claim system. Additionally, I have team-oriented training in the Swedish Army Ranger Battalion. Known for a strong work ethic and innovative problem-solving, I excel in both independent and collaborative projects, continuously seeking to expand my knowledge and put my love of making projects to use.

Work Experience

Full-stack Developer, Flygresor.se
2024 - Present

Refresh of the last-minute travel page, optimized for performance, user-friendliness, conversion rates, and mobile responsiveness, accommodating over 300,000 monthly visitors.

Manager, MW Group Stockholm
2021 - Present

Consulting assignments with various corporate clients. Key assignment: Security Manager at Stockholm Arlanda Airport.

Product Owner / Full-stack Developer, AFRY
2023

Product Owner at AFRY, I developed the frontend of a sustainability-focused Book and Claim system and led a team to meet the project's goals using Agile methodologies.

Ranger Soldier, Army Ranger Battalion (K4) Arvidsjaur
2019 - 2020

I specialized in precision marksmanship (AG 90) and long-range reconnaissance, supporting mission objectives, and completed basic medical training. These experiences enhanced my attention to detail, strategic planning, risk assessment, and ability to stay composed under pressure, making me effective at teamwork.

Salesperson, Förebygg Stockholm
2020

Sales of ID protection services B2C and B2B

Education

Computer science, KTH Royal Institute of Technology
2020 - 2024

Natural Science, Midsommarkransens Gymnasium
2016 - 2019

Certifications

Drone Pilot License (EASA, Transportstyrelsen, Open Category A1/A3) 2024

CCNAV7 Switching, routing, and Wireless Essentials 2023

CCNA Cisco Certified Network Associate 2020

B Driver's License 2018
